WBCSD SDG BUSINESS HUB The SDG Business Hub looks to consolidate the voice of forward-thinking business and to provide easy access to resources, tools, case studies and insight which supports the navigation of this dynamic agenda.

CDP LAUNCHES REPORT ON 24 MAY 2017 “OVERCOMING BARRIERS TO CORPORATE WATER RISK MANAGEMENT”.

A report resulting from 2+ years of work between CDP's water programme and IWaSP, the International Water Stewardship Programme of GIZ which has been commissioned by the German Federal Ministry for Economic Cooperation and Development. This report explores why corporate engagement in collective action remains confined to only a few leading companies - rather than mainstream activity. Collective action is critical component to water risk management; since water is a shared resource, advancing its sustainable use requires cooperation of all water users in a river basin, including corporations, government entities, NGO's, and local communities. The report identifies six barriers to corporate engagement in multi-stakeholder water risk management, and outlines possible solutions to overcome them. It offers clear steps for companies, water management authorities, investors, and NGO's to take.

BECOME A CONSERVATION CHAMPION [The Green Times, 23 May 2017.](#)

FACT FILE: CLIMATE CHANGE ADAPTATION FINANCE More frequent and severe droughts, floods, and storms associated with climate change mean the livelihoods of the world's roughly half a billion smallholder farmers are growing ever more precarious. [African Newswire, 22 May 2017.](#)

QUICK ACTION VITAL FOR GHG EMISSION REPORTING REGULATIONS [The Green Times, 22 May 2017.](#)

IT'S TIME TO TAKE THE JOURNEY OF OUR WATER In light of the drought, and the realisation that water stress is the new normal, we've been forced to reconsider the way we use water. It has even inspired a renewed and deeper appreciation for this natural resource that we simply can't live without. [WWF-SA.](#)

THE FUTURE BEGINS NOW It's not a question of whether regulations for greenhouse gas emissions will come, but, rather, when. Two degrees of global warming are enough and the implementation has to start quickly. [Focus on Transport & Logistics](#)

IMVELISI – DEVELOPING ENVIROPRENEURS MENTORS: CALL FOR EXPRESSION OF INTEREST 2017 GreenMatter and the Young Water Professionals (a division of the Water Institute of Southern Africa) manage the Imvelisi Enviropreneur Programme which is a DST funded training programme. This initiative supports young people interested in running water and biodiversity related businesses, through the creation of an early ideation training programme that enables participants to develop their business idea, understand their market, conceptualize a business plan and refine their pitching skills. If you are interested, please click [here](#).

NBI EVENTS 2017

THE BUSINESS OF ADAPTATION A framework for businesses to act on, enable and influence climate resilience on **Tuesday, 20 June 2017 at the Maslow Hotel, Sandton and on Thursday, 22 June 2017 at The Radisson Blu Hotel, V&A Waterfront, Cape Town**. Climate change is a material risk to business. For the last two years the World Economic Forum (WEF) has identified climate risk within the top two concerns for those businesses surveyed, while a recent CDP report found that only 50% of surveyed companies are currently managing their climate risk. Co-hosted by BSR, NBI and Kudos Africa. Click on the appropriate link: [RSVP Johannesburg, 20 June 2017](#) and [RSVP Cape Town, 22 June 2017](#).

THIRD ANNUAL VISION 2030 SUMMIT 21 to 22 June 2017 at Birchwood Hotel & Conference Centre, Gauteng. Hear from and network with thought leaders in both the private and public sectors, to be part of a new phase of socioeconomic acceleration and transformation in South Africa. [Information](#).

MANUFACTURING INDABA 27 to 28 June 2017 Emperors Palace, City of Ekurhuleni. All nations require and rightly aspire to efficient industrial bases to meet changing needs in a globalised world. South Africa has developed an established and diversified manufacturing base that has shown its resilience and potential to compete in the global economy. Collaboration and investments by both the public and private sectors in manufacturing is essential for regional and continental growth. The aim of the annual Manufacturing Indaba and its provincial roadshows is to bring together business owners, industry leaders, government officials, capital providers and professional experts to explore opportunities and grow their manufacturing operations. Manufacturing Indaba is the leading manufacturing

event in Sub-Saharan Africa. The two-day event has shown impressive growth year on year and has proved its value in catalyzing business connections and helping manufacturers to innovate and grow their potential. [Website](#).

CAMBRIDGE SUSTAINABILITY PRACTITIONER PROGRAMME 13 to 16 August 2017, Intundla Game Lodge, Gauteng.

We need to rapidly engineer a sustainable economy, one that meets human needs within natural constraints – within the carrying capacity of the one planet we all live on and depend on. We need organisations that are able to create jobs and increase access to products, services and livelihood opportunities in a resource-constrained and low-trust world. We need to develop leadership at all levels in organisation that understand what is required. This seminar is designed for managers in organisations from the private or public sector to equip them with a high-level understanding of sustainability. For more information as well as the application form, please have a look at the [website](#), or contact **Magda DeKok** on magda.dekok@cisl.cam.ac.uk.

INFRASTRUCTURE AFRICA BUSINESS FORUM 21 to 22 August 2017 at the Sandton Convention Centre, Sandton.

Africa, with a population exceeding 1 billion people, is well placed as an emerging market and has successfully maintained an average growth rate of 4% for the past few years as a continent. Africa is also urbanising at breakneck speeds, which means the need for infrastructure such as bypasses, bridges, new highways and new technologies need to be deployed in congested areas where traditional methods cannot work. This evolution of infrastructure and the underlying drivers of growth are highlighted at the annual Infrastructure Africa conference and exhibition. With discussions on specific project development opportunities from infrastructure players operating on the ground, the two-day business forum offers businesses the platform to set their regional strategies for long-term growth and the opportunity to unpack the enormous growth potential in Africa's infrastructure sectors. [Website](#).

STAKEHOLDER ENGAGEMENT FOR EFFECTIVE MANAGEMENT AND REPORTING COURSE 22 August 2017 at the

Glenhove Conference Centre, Melrose, Johannesburg. For more information visit www.ess-sustainability.co.za, e-mail seakle@ess-sustainability.co.za or phone 082 395 7582.
