NBI'S 3RD 2019 ADVISORY COMMITTEE FOR ENVIRONMENT & SOCIETY (ACES) MEETING took place on Tuesday this week at Sasol Place, Sandton. ACES is the governance body that NBI member companies can use to influence the strategy and work of the environment team. The engagement was well attended by representatives from 13 of our member companies who received a detailed status report on the progress made under each of the team's following focus areas: Climate, Energy, Water, the Sustainable Development Goals (SDGs) and the Green Economy. Members were particularly interested in hearing more about the work on Just Transitions and Transition Risk that forms part of the Climate Programme, as they recognise that there is an opportunity for the NBI to provide some much-needed research to assist both public and private sector stakeholders. The Environment Team's water programme also received positive feedback, particularly in relation to the Kopano ya Metsi project - the [reports](#) were launched earlier this year. ACES members furthermore affirmed the strategic direction in which the Environment team is heading. [View Infographic here.](#)

ENABLING ECONOMIC INCLUSION - MEASURING THE IMPACT |

Friday, 30 August 2019 | Workshop 17, Sandton | In our South African context of high inequality, poverty and increasing unemployment, the ability to create an inclusive economy is fundamental in driving social and economic transformation. We urgently require collaborative responses and action to change the trajectory towards a more stable, equitable and sustainable society. This requires a real commitment to the development, support and growth of the SME sector that continues to face major challenges in our economy. The purpose of this Thought Leadership dialogue is to grapple with these challenges, and to explore practical and implementable solutions through a case study. Growthpoint’s initiative Property Point recently released a [Development Impact Report](#) that assesses the economic impact of programmes in supporting and growing SMEs over 10 years of operating. The insights from the report highlight the importance of measuring and evaluating interventions to ensure real impact and change. Should you wish to attend this session, please contact: [Nombulelo Ndaba](#).
