EXTENDED TO 9 JULY: Climate Finance Accelerator (CFA) Call for Proposals

Call for Proposals for the innovative Climate Finance Accelerator (CFA) programme have been extended to 9 July 2021.

Funded by the UK Government's International Climate Finance, the CFA acknowledges there is money available for climate finance, just not always where it is needed. The result, highly promising climate mitigation projects that are often not sufficiently bankable nor appealing to investors.

Low-carbon project developers can take advantage of this exciting opportunity by applying directly to the CFA South Africa for funding. The **Call for Proposals** for climate projects seeking technical support to improve access to finance has been extended until **Friday, 9 July 2021**.

By engaging with the CFA programme, project developers can benefit from:

- Access to investors
- Coaching and best practice insights
- Networking opportunities
- Increased visibility
- Achieving low carbon project objectives

Please **click here** to apply for funding for a low-carbon project.

For more information on the CFA in South Africa, please contact Reitumetse Molotsoane (NBI Programme Manager: Energy and Climate): ReitumetseM@nbi.org.za
