

OPPORTUNITIES

Companies identify substantive & immediate opportunities in water, with a focus on new products, water efficiency and cost savings.

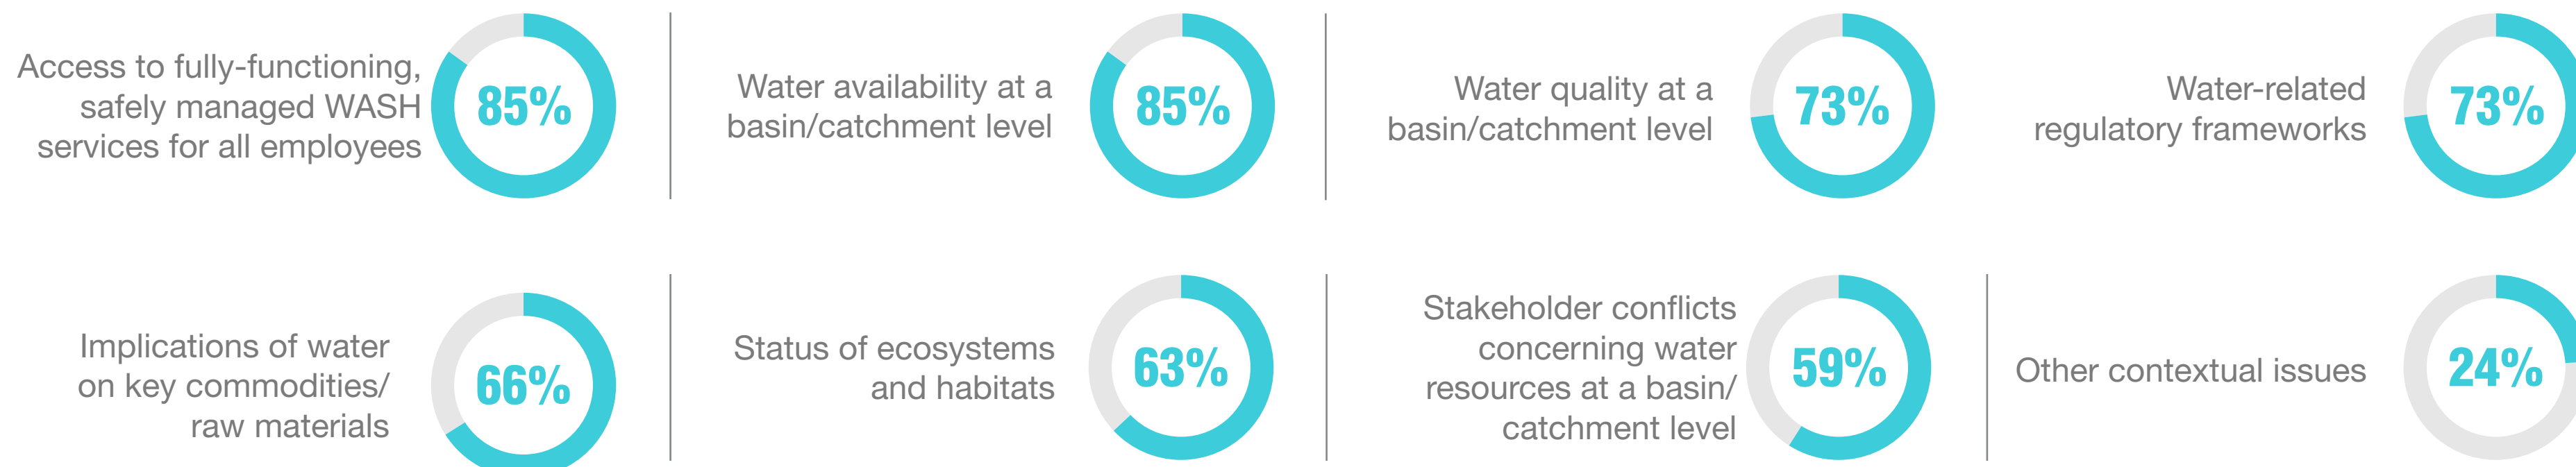

RISK ASSESSMENTS

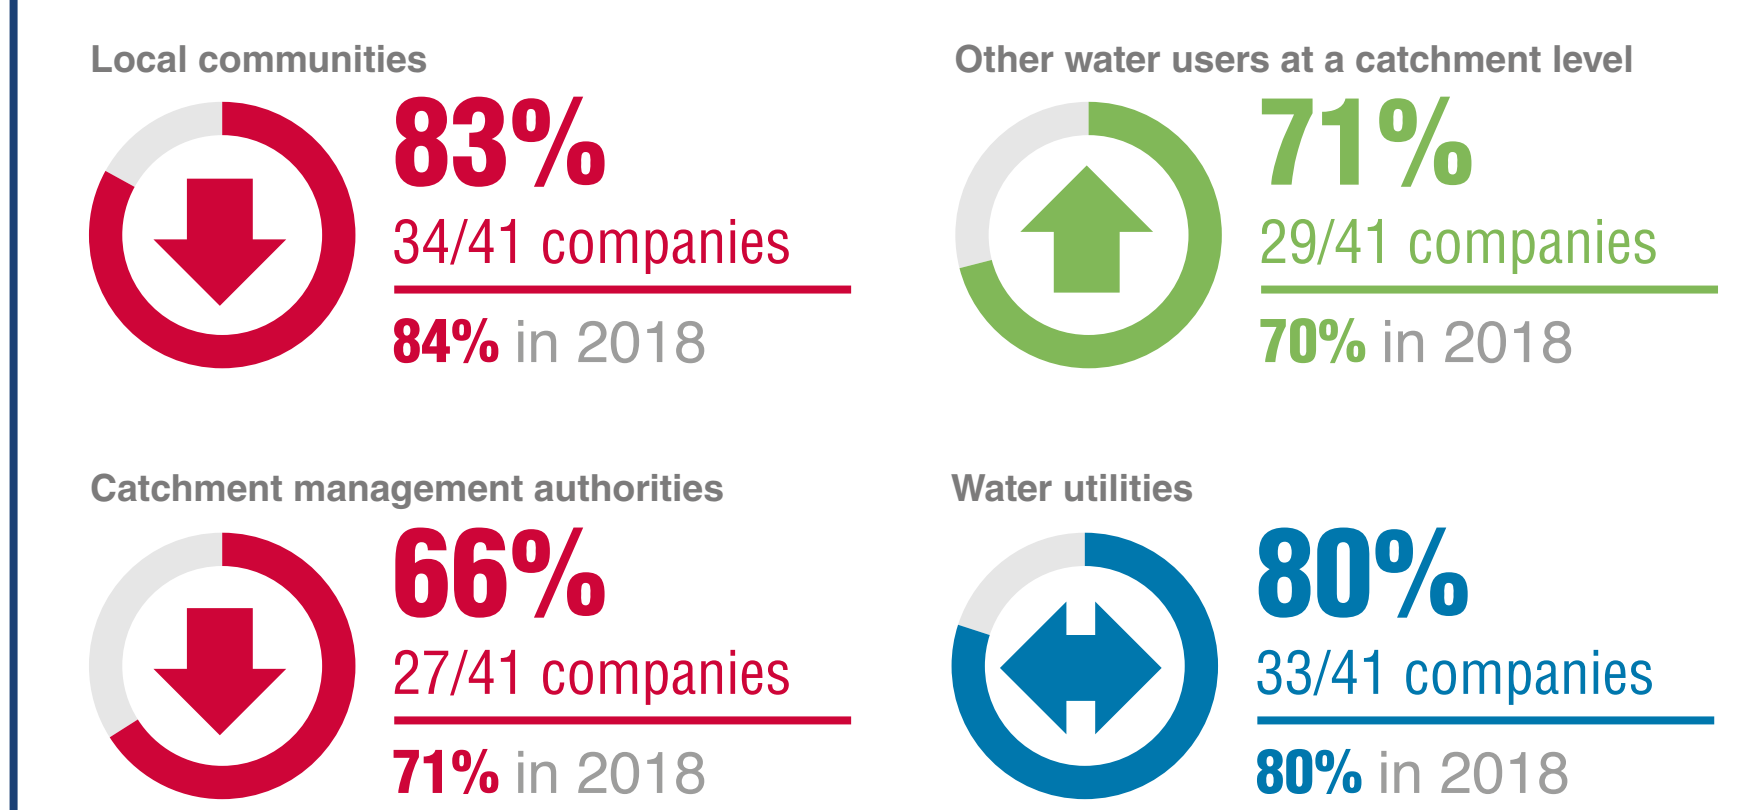

Companies are starting to consider their surrounding communities and catchment context within their risk assessments.

100% of companies conduct a comprehensive risk assessment

Contextual issues considered in risk assessments:

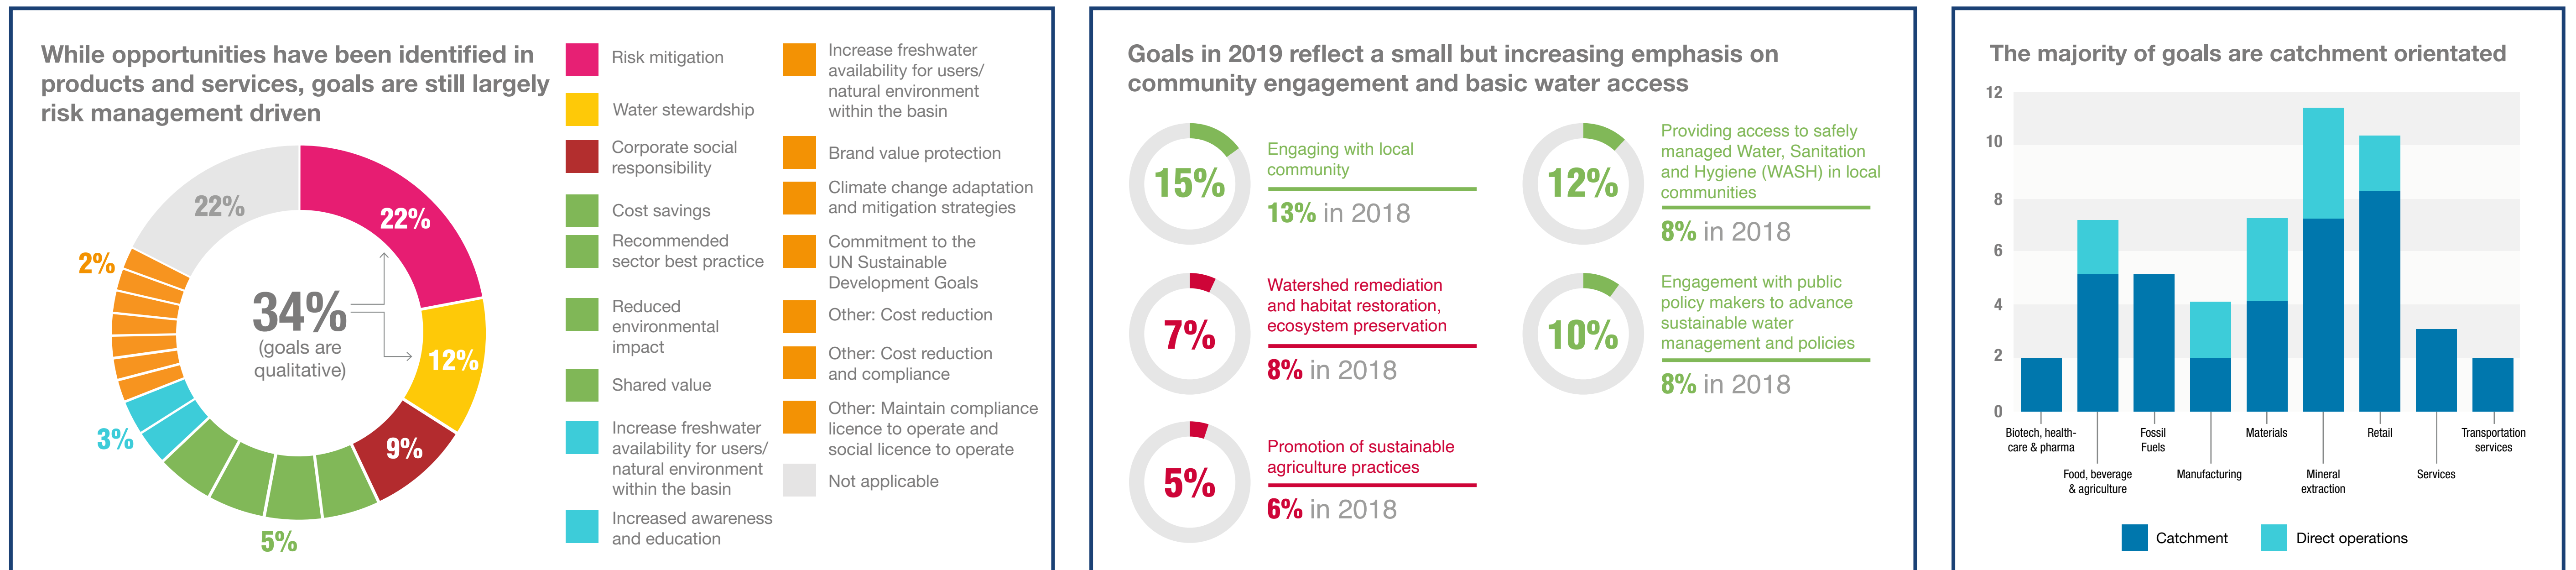

Companies could strengthen their consideration of catchment level stakeholders in risk assessments

GOALS

Goals are primarily motivated by risk mitigation and improving the broader water context though community engagement and catchment management.

TARGETS V RESULTS

Company target setting is not sufficient. A greater number of localised targets aligned to catchment context is needed.

CONCLUSION

Some operational improvements have been made, but companies need to strengthen their efforts in water stressed areas and within their value chains.
