## NOTIFICATION

### South Africa's Draft Sectoral Emissions Targets (SETs) Report Now Open for Comments

Dear <<First Name>>

The **National Business Initiative (NBI)** would like to inform you of the draft release of South Africa's long anticipated **Sectoral Emissions Targets (SETs)**. The report outlines the country's proposed SETs, as allocated per sector.

These targets aim to support South Africa in meeting its domestic and international commitments to combat climate change. SETs are part of a wider mitigation system, outlined in the 2011 National Climate Change Response Policy (NCCRP), and are necessary to achieve the National Determined Contributions (NDC) under the Paris Agreement.

The NBI encourages you to review the draft report and provide your valuable feedback and comments by no later than **Monday, 24 June 2024**.

Your feedback will play a crucial role in shaping these targets and ensuring that your sector's voice is represented by ensuring targets are both pragmatic and achievable.

You can access the draft report [here](#) and submit your comments to any of the following addresses:
