

NEWSFLASH

7 NOVEMBER 2025

The National Business Initiative (NBI) is proud to announce that we have won a Gold Award in the Climate Change category for our Climate Finance Accelerator – South Africa (CFA-SA) programme at the Eco-Logic Awards 2025.

The CFA-SA programme is designed to support South Africa's transition to a low-carbon, climate-resilient economy. Funded by the UK Government, it strengthens collaboration between project developers, financiers and policymakers, enabling bankable climate projects that deliver systemic and sustainable impact.

CLIMATE CHANGE

Now in its 14th year, the Eco-Logic Awards honour individuals, organisations, communities and groundbreaking innovations that drive meaningful social and environmental sustainability.

The Awards recognise achievements across **12 categories, including climate change solutions, water conservation, circular economy initiatives, eco-fashion, and community-driven programmes.**

Entries opened earlier this year, with submissions carefully evaluated by a panel of independent experts with diverse backgrounds and extensive environmental knowledge.

Since its launch in 2022, CFA-SA has supported **43** low-carbon projects, helping to mobilise over **\$100 million** in investment across key sectors, advancing climate action that is inclusive, equitable and transformative.

This recognition highlights the power of partnership in driving South Africa's Just Transition and building a sustainable, resilient future for all.

The **National Business Initiative (NBI)** in partnership with **GreenCape** have been appointed as the national delivery partners for the **CFA South Africa**.
